

NO. 71259

**APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED**

Date of filing in State Engineer's Office MAY 28 2004

Returned to applicant for correction _____

Corrected application filed _____

Map filed MAY 28 2004

The applicant **South Crestview Homeowners Association, Inc.** hereby makes application for permission to change the **point of diversion of a portion** of water heretofore appropriated under **Permit #31885**

1. The source of water is **Underground (Well #3)**
2. The amount of water to be changed **0.7 c.f.s.**
3. The water to be used for **quasi-municipal**
4. The water heretofore permitted for **quasi-municipal**
5. The water is to be diverted at the following point **NW¼ SW¼ Section 7, T.34N., R.55E., M.D.M., from which the SW corner of said Section 7 bears S. 0° 35' E., 1609.4 feet distant.**
6. The existing permitted point of diversion is located within **SW¼ SW¼ Section 7, T.34N., R.55E., M.D.M. from which the SW corner of said Section 7, bears S. 0° 05' 12" W., 824.85 feet distant.**
7. Proposed place of use **Portions of SW¼ and SW¼ NW¼ Sec. 7, T.34N., R.55E., M.D.M. (as described in permits #31885 and 47412)**
8. Existing place of use **Portions of SW¼ and SW¼ NW¼ Sec. 7, T.34N., R.55E., M.D.M. (as described in permits #31885 and 47412)**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **drilled and cased well with gravel packing, submersible pump and motor, storage tanks and pipeline**
12. Estimated cost of works **\$80,000**
13. Estimated time required to construct works **one year**
14. Estimated time required to complete the application of water to beneficial use **five years**

15. Remarks Recent emergency use of stored water to fight range fire off property demonstrated vulnerability of existing system to provide adequate and timely supply & reserve. This new well is intended to be a principal source of supply. The well described under #31885 will be kept operational and in compliance with public health laws, as a back-up source.

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 31885 is issued subject to the terms and conditions imposed in said Permit 31885 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permits 31885, 47412 and 71259 shall not exceed 14.6 million gallons annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.7 cubic feet per second, but not to exceed 5.11 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

April 14, 2006

Proof of completion of work shall be filed on or before:

May 14, 2006

Water must be placed to beneficial use on or before:

April 14, 2010

Proof of the application of water to beneficial use shall be filed on or before:

May 14, 2010

Map in support of proof of beneficial use shall be filed on or before:
